# Letter-Writing:

Receiving a handwritten letter in the post is one of the nicest things you can get, so why not make someone's day!

Write a letter to a granny or granda, a cousin, or anybody you know who you think would appreciate a letter. Tell them what you have been up to and how you are getting on, giving them as much news as possible. You could also draw a nice picture to go along with it. Don't forget to ask them to write back to you!

Remember to follow the guideline below for how to structure your letter:

**Writing a Letter**

There are some special rules you should follow when writing a letter.  
Here is an example of how to write a letter.

The diagram illustrates the structure of a letter on a set of horizontal lines. A vertical red line is drawn down the page. To the right of this line, the sender's address is written: "99 Towntown Avenue, Arklow, Co. Wicklow, W45321 IRELAND". A label "Address of the sender" points to this address. To the left of the red line, the date "8<sup>th</sup> June 2017" is written. A label "Date" points to this date. Below the date, the salutation "Dear John and Amy." is written. A label "Dear (the person/people you are sending the letter to)" points to this salutation. Below the salutation, the main message "I hope you are well. I am writing to say thank you for the lovely gift you sent me for my birthday. The coat is beautiful and I am wearing it a lot. Please come to visit again soon." is written. A label "Your message" points to this message. Below the message, the closing "Love from, Susie" is written. A label "Say goodbye" points to this closing.

## What is a Proper Noun?

Common nouns are the general names for people, places, objects or animals.

Proper nouns are different as they name specific places/landmarks or people/characters (e.g. Benji the dog). They should always start with a capital letter. Months of the year, days of the week, some events/festivals and brand/company names are also considered to be proper nouns.

Can you sort these cards into two sets of common nouns and proper nouns? The proper nouns have deliberately been spelt using lower-case letters to make the task trickier!

### Extra Challenges:

- Use some of the proper nouns in sentences - don't forget their capital letters.
- Turn all of the cards face down on your table and play matching pairs with a partner. Can you choose two common nouns or two proper nouns so that you can keep the cards?
